25X1 5. [REDACTED]

25X1 6. [REDACTED] Met with Mr. Robert Michaels, House Appropriations Committee Staff who advised that a room is being fitted in the Capitol for use, in part, for meetings of the CIA Subcommittee. Appropriate wall maps will be needed for the room together with a two drawer rather than the present four drawer safe which was furnished by the Agency, for necessary storage of documentation furnished the Committee by the Agency.

25X1 7. [REDACTED] Mrs. Hinkle, in Congressman Lee Hamilton's office, called regarding our summer-employment program. I informed her of the general outline of our program and the reasons therefor, which she seemed to understand and agree with. I suggested that if it would help, we would be happy to address an appropriate reply to the interested party, and she decided to send the inquiry to us for such treatment.

25X1 8. [REDACTED] Miss Cohen, in Senator Gaylord Nelson's office, called regarding an application of Mr. [REDACTED] for summer employment. I briefly outlined the nature of our summer-employment program, and Miss Cohen appeared to understand our problem perfectly. I indicated that we were writing [REDACTED] concerning his application, and Miss Cohen indicated that under these circumstances, the Senator would not make a request in this case.

25X1 9. [REDACTED]
